About Us

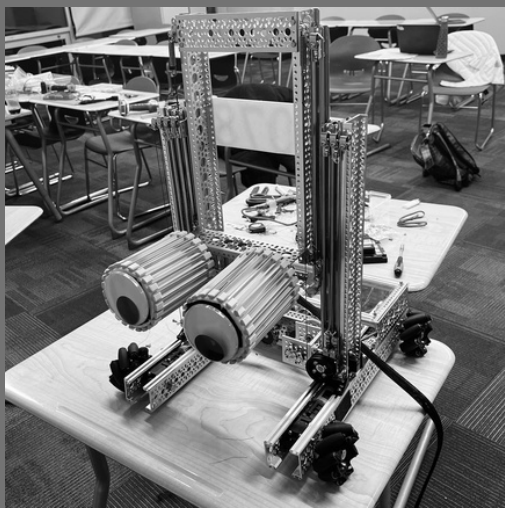

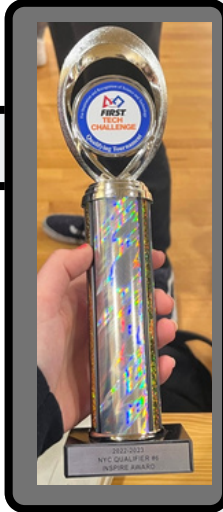

Paranoid Androids On Steroids

Our team

Our team is a group of 10 students from SAR High School who are passionate about robotics! Last season, we won the most prestigious award, the Inspire award, at one of our competitions. Our captain was a Dean's List Finalist (1 out of 100 internationally), for personally embodying the FIRST values. Our robot was very successful and we innovated through use of unfamiliar technologies!

Inspire

This judged award is given to the team that best embodies the 'challenge' of the FIRST Tech Challenge program. The team that receives this award is a strong ambassador for FIRST programs and a role model FIRST team. This team is a top contender for many other judged awards and is a gracious competitor. The Inspire Award winner is an inspiration to other teams, acting with Gracious Professionalism® both on and off the playing field. This team shares their experiences, enthusiasm and knowledge with other teams, sponsors, their community, and the judges. Working as a unit, this team will have shown success in performing the task of designing and building a robot.

The Game

We compete in the First Tech Challenge, an international robotics competition, with a chapter in NYC. Each year, there are new tasks for our robots to complete meaning that each season we need to design, build, and code an entirely new robot. We also do community outreach as part of our team's mission to spread STEM to others. This includes STEM activity sessions for kids, mentoring other teams, and teaching sponsors about FIRST.

WHY SPONSOR US?

Each season, the game changes and we need to buy new parts either because our older ones are not damaged, or because the new challenge requires a very different solution. The parts are often very expensive and require more than one item purchase for each part. Our team is very meticulous in our approaches to designing: starting with cardboard, then 3d models, before even thinking of ordering parts to ensure that the parts we order are those that we need. We also need funding for our outreach events, as a part of us giving back to our community. Our team mission is to make STEM accessible for everyone and we need your help to make that possible.

Tiers of Sponsorship

\$1-\$149 ~ Nuts and Bolts

- Recognition on our team's website and social media.
- Thank-you certificate of appreciation.

\$150-\$299 ~ Gears and Gadgets

- All benefits of the previous tier.
- Company logo on team uniforms.
- Mention or acknowledgment during team presentations.

\$300-\$499 ~ Circuit Champions

- All benefits of the previous tiers.
- Prominent logo placement on team robot.
- Exclusive sponsorship plaque.
- Opportunity for a representative from the sponsor company to speak at team events or workshops.

\$500-\$1000 ~ Optimus Prime

- All benefits of the previous tiers.
- Dedicated sponsorship spotlight on our team's website and social media channels.
- Prominent logo placement on team's promotional materials and competition posters.

Paranoid Androids On Steroids

OUR COSTS

While we try to reuse as many parts as we can from year to year, it is impossible to go season to season without new purchases both for the robot and the competition in general. We are trying to raise as much of the \$2000 as we can in local and corporate sponsorships, and we are applying for grants.

Item	Price
Robotics Parts (so far)	\$500
Team Sweatshirts	\$500
Outreach Activity supplies	\$500
Additional Robotics Parts	\$500
Total	\$2000

Our up to date spreadsheet of purchases can be found using this QR code:

A DEEPER DIVE

What exactly do we need?

Item	Definition
Robotics Parts	<p>This season we have to build a robot to complete many tasks both autonomously and with a driver. This includes:</p> <ul style="list-style-type: none">• Flying a Paper airplane• Picking up and placing pixels onto an angled board• Hanging from a bar
Team Sweatshirts	<p>Each team who competes makes team swag to be distinguishable at outreach events and competitions. Sponsorship for our swag also connects the team as parents do not need to buy their child's individual sweatshirt.</p>
Outreach Activity supplies	<p>Each season, we complete community outreach events including: STEM activities for such as coding and science experiments, zoom panels with professionals, and supply donations. We need your help to be able to continue giving back and inspiring in these ways!</p>
